

MATERIALS PROTECTION

Volume 4

1965

Tables of Content

Alphabetical Subject Index

Alphabetical Author Index

1965 Tables

Volume 4

Listed on these two pages are the complete Tables of Contents for the 1965 issues of MATERIALS PROTECTION, Volume 4. All these articles have been thoroughly indexed in the following pages under the Alphabetical Subject Index and in the Alphabetical Author Index.

Location of information published in this journal during 1965 is easy. Sim-

ply look in the Alphabetical Subject Index for the subject you want. Then refer to the issue which is given by month and page number.

Persons wishing to make their reference file of the 1965 issues as complete and correct as possible should note the errata given in some of the articles listed in the Table of Contents.

Articles in MATERIALS PROTECTION

also are indexed regularly in "Engineering Index," "Chemical Abstracts," and "Corrosion Abstracts." Bound volumes of these three indexing services are available at most libraries.

Reprints of all articles published in MATERIALS PROTECTION can be obtained at nominal costs. Write NACE, 980 M & M Building, Houston, Texas 77002.

January	Page	March	Page	May	Page
Exceptional Metals, Staff Feature.....	7	Red Plague Corrosion on Silver-Plated Copper Wire by P. L. Anthony and O. M. Brown.....	8	Blasting Sands by W. R. Lambert.....	11
Protection of Columbium With Water Slurry Coatings by John B. Whitney.....	12	How to Approach a Corrosion Problem by Cornelius Goot which appeared on page 10, November, 1964, MATERIALS PROTECTION.....	15	Errata: "Cathodic Protection of Aluminum" by	
Titanium: Its Corrosion Behavior and Passivation by E. E. Millaway.....	16	The Corrosion Engineer as a Consultant by L. P. Sudrabin.....	21	Cornelius Goot which appeared on page 10, November, 1964, MATERIALS PROTECTION.....	15
Beryllium Corrosion and How to Prevent It by A. J. Stonehouse and W. W. Beaver.....	24	Economic Comparison of Alternatives in Equipment Service Life by F. C. Jelen.....	23	External Stress Corrosion Cracking of Stainless Steel Under Thermal Insulation by W. G. Ashbaugh.....	18
Reactivity of Titanium With Liquid and Gaseous Oxygen by J. D. Jackson, W. K. Boyd, P. D. Miller and A. W. Brisbane (Errata, March 32).....	30	Evaluating New Material and New Techniques by Capitalized Cost Method by O. W. Wade.....	29	Bird Droppings, Sea Water, and Even Hot Water Cause Stress Corrosion Cracking in Marine Service by B. F. Peters, J. A. H. Carson, and R. D. Barer.....	24
Evaluation of Corrosion Data for the Oil and Chemical Industries by G. A. Nelson.....	36	Calculated Risk as a Tool in Corrosion Economics by J. F. Minter.....	35	Economic Evaluation of Corrosion Control Measures by C. P. Dillon.....	38
Laboratory Tests Show Hexavalent Chromium Reduces Corrosion in a Coal-Water Slurry Pipeline by D. R. Bomberger.....	43	Economics of Using Non-Destructive Testing in Corrosion Control Programs by K. J. Crowe.....	43	Industrial Floors With a Long Life by George P. Gabriel.....	49
Titanium and Zirconium in Corrosion Resistant Service by Edward R. Funk.....	52	Selection of Materials for Multistage Flash Sea Water Conversion Plants by R. A. White.....	48	Value of Galvanized Reinforcing in Concrete Structures by K. S. Frazier.....	53
Compatibility of Titanium and Nitrogen Tetroxide by R. L. Wallner, B. B. Williams, and A. C. Simmons.....	55	How Corrosion of the X-15 Was Solved by E. R. Geib.....	56	Detection of Sodium Ions in Steam Water Cycles by E. L. Knoedler and C. H. Perier.....	56
Peracetic Acid Will Control Sulfate Reducers by William H. Kibbel, Jr., Donald F. Kreuz, and J. D. Crawford.....	57	Tank Trailer Gets Anodic Protection on the Move by Carl E. Locke.....	59	Two Cases of Stress Corrosion Cracking in Copper Tubing by Hugh L. Logan and Gilbert M. Ugiinsky.....	79
Anodic Protection for a Titanium Heat Exchanger by P. E. Morgan and L. S. Evans.....	60	Can You Afford Your Cooling Water Treatment Program? by D. B. Jones.....	62	Effects of 60-Cycle Alternating Currents on Corrosion of Steels and Other Metals Buried in Soils by W. H. Bruckner.....	80
Glossary of Terms Used in Maintenance Painting Report of NACE Technical Unit Committee T-6D.....	73	Influences of Anodes on Solution pH in Salt Crock Tests by Robert C. Weast and Donald C. Melrose.....	82		
NACE Glossary of Corrosion Terms Standard Definitions and Terminology Subcommittee NACE Publication Committee.....	79				
February	Page	April	Page	June	Page
A \$15 Bargain, Staff Feature.....	7	Protective Coatings for Ship Bottoms by R. P. Devoluy.....	10	Explosion Clad Plate for Corrosion Service by Andrew Pocalko.....	10
Localized Corrosion During Chemical Cleaning by J. K. Rice and Charles M. Loucks.....	14	Polyester Coatings by Neil S. Estrada.....	15	The Importance of Corrosion Control: You and Your Company by Carrington Mason.....	20
Cathodic Protection of Kort Nozzles by N. S. Dempster.....	24	Inspection of Thick Film Linings By D. H. Gelfer and Bert Conrad (Letter to the Editor, Errata, Oct. 42).....	26	Professional Malpractice by William P. Westphal.....	22
Stress Corrosion Tests of Some Wrought Magnesium-Lithium Base Alloys by J. C. Kizska.....	28	How to Test Coatings for Specific Applications by Jerry D. Byrd.....	32	Ethics of the Corrosion Engineer by C. G. Munger.....	24
X-Ray Spectroscopy Analysis: Another Tool for the Corrosion Engineer by Frank D. Weaver.....	30	Polyurethane Liner Extends Life of Cyclone Dust Separator in Abrasive Service by Harry L. Dickey.....	37	Valve Corrosion, Staff Feature.....	28
Cathodic Protection of Screened Structures by M. Unz.....	34	Development and Case History Data on Zinc Dust-Sodium Silicate Coatings by M. G. McKenzie.....	40	Cathodic Protection for an Offshore Structure by A. E. Hiller and D. A. Lipps.....	36
The Rate Controlling Mechanism of High Temperature Hydrogen Attack of Steels First Progress Report From the University of Wisconsin.....	51	Edge Corrosion on Aircraft: Experimenting with Aluminum, Magnesium, and Steel by S. L. Chisholm.....	48	A Method for Determining Bridge Painting Cycles by Carl M. Kirsch.....	40
Cathodic Protection Saves Staten Island's Ferry Terminal by L. P. Sudrabin and Harry Emig.....	53	How to Make a Literature Search by Thomas F. Shaffer, Jr.....	51	Economic Analysis of Tank Coatings for Tankers in Clean Service by Lee Purlee, Walter A. Leyland, Jr., and W. E. McPherson.....	50
Bacterial Corrosion in a Waterflood System by Willard R. Scott.....	57	Your Personal Filing System for Corrosion Literature by R. E. Gackenbach.....	54	Materials Specifications and Fabrication for Hydrocracking Process Equipment by L. T. Overstreet and R. A. White.....	64
Chelation Chemistry—Its Importance to Water Treatment and Chemical Cleaning by W. E. Behl.....	78	Consultant-Management Relationships in Corrosion Control Work by J. R. Rysgaard.....	58	High Temperature Corrosion of Constantan Thermocouple Conductors by J. A. Klapffer, R. Plotell, B. E. Tenzer, and H. Heffan.....	72
		Effect of Structural Change on the Inhibitor Effectiveness of Amido Acids by V. L. Stromberg.....	60	A Survey of Methods for Coating Metals With Titanium by Peter T. Vincent.....	78
		What Field Personnel Should Know About Rectifiers, Staff Feature.....	75	Anodic Protection of Carbon Steel in Fertilizer Solutions by J. D. Sudbury, W. P. Banks, and C. E. Locke.....	81

MATERIALS PROTECTION

Alphabetical Subject Index

Volume 4, 1965

A

A-C corrosion on buried steel, May 80
Abstracting services available to corrosion engineers making literature searches, Apr 51

Adhesion tests on epoxies that cure underwater, Sep 24

Air Force, corrosion control programs, Dec 11

Air Force establishes career fields in corrosion control prevention, Aug 50

Alkyd, coatings to prevent atmospheric corrosion, Sep 82

Alternating currents, effect on steel and other metals buried in soil, May 80

Ammeter, zero resistance in corrosion testing, Sep 75

Ammonia, liquid, fuel for X-15 aircraft, corrosion problems caused by, Mar 56

Ammonium chloride, corrosion by, in coal tar distillation equipment, Dec 52

Ammonium thiocyanate, corrosion by, in coal tar distillation equipment, Dec 52

Anhydrous aluminum silicates as fillers for polyvinyl chloride, Oct 13

Approaches to a corrosion problem, Mar 19

Asbestos, reinforced pipe, fitting, Oct 35

Asphalt coatings, new developments, Nov 22

Asphalt, effect of bacteria and fungi, Dec 39

Atmosphere, aluminum, magnesium, Dec 30

Atmosphere, alkyl coating for corrosion prevention in, Sep 82

Atmosphere, humidity control during coating, Nov 69

ACIDS

Acetic, contaminated, corrosion on various alloys, Sep 20

Acetic, epoxy-acrylate, tests in, Oct 47

Acetic, hot, attack on bronze stem in a gate valve, Jun 28

Acetic, performance of asbestos reinforced pipe, fittings, Oct 35

Acetic, role of contaminants in corrosion by, Sep 20

Amido series, effect of structural change in inhibition of corrosion, Apr 60

Chelation chemistry, importance to chemical cleaning, Feb 78

Corrosion of TD and A Nickel in, Nov 31

Epoxy-acrylate, tests in, Oct 47

Hydrochloric, epoxy-acrylate, tests in, Oct 47

Hydrochloric, lab exposure to test coatings, Apr 32

Hydrochloric, local corrosion caused by during chemical cleaning, Feb 14

Hydrochloric, stored in natural rubber lined tanks, problems with, Oct 43

Localized attack in chemical cleaning caused by, Feb 14

Nitric, epoxy acrylate, tests in, Oct 47

Nitric, titanium used for, Jan 52

Organic, performance of alkyls in, Sep 82

Peracetic in waterflood systems and cooling towers to kill sulfate reducing bacteria, Jan 57

Phosphoric, performance of asbestos reinforced pipe, fittings, Oct 35

Polythionic, cause of stress corrosion cracking of stainless steel in refinery equipment, Sep 14

Sodium hydroxide, epoxy-acrylate, tests in, Oct 47

Sodium hypochlorite, performance of asbestos reinforced pipe, fittings, Oct 35

Sulfuric, attack on Type 316 stainless steel valve stem, Jun 28

Sulfuric, epoxy-acrylate, tests in, Oct 47

Sulfuric, hot, titanium heat exchanger used to process, problems encountered, Jan 60

Sulfuric, lab exposure to test coating, Apr 32

Sulfuric, performance of asbestos reinforced pipe, fittings, Oct 35

Sulfuric, tank trailer protected by portable anodic protection unit, Mar 59

Testing reinforced plastics in, Oct 74

ADHESIVES

Asphalt coatings, new developments, Nov 22

Conductive, to bond zinc anodes to ship hulls, Jul 38

Gaskets, packings, deterioration of, Nov 13

Limiting factor for rubber linings in tanks, Oct 43

AEROSPACE

Corrosion control programs in the Air Force, Dec 11

Corrosion of military equipment, Dec 7

Corrosion problems with fuel system on X-15 aircraft, Mar 56

High temperature stress corrosion tests on alloys used in aircraft and space vehicles, Aug 23

AIR CONDITIONING

Coating tanks in controlled humidity, Nov 69

Fluorochemical surfactants as initiators in, Jul 44

AIRCRAFT

Air Force career fields set up in corrosion control/prevention, Aug 50

Bolts and rivets used in corrosion test for aircraft exterior skin, Aug 18

Corroding modulating valves bellows corrosion, Oct 69

Corrosion of military equipment, Dec 7

Corrosion problems and their solutions, Oct 69

Fasteners and countersinks or exterior skin, evaluation of corrosion control on, Aug 18

Helicopter corrosion problems, Aug 27

Naval, experiments to determine causes and prevention of metallic edge corrosion, Apr 48

Stress corrosion tests on alloys at high temperature used in aircraft and space vehicles, Aug 23

ALLOYS

Aluminum as construction material for lubricating systems, Sep 41

Aluminum bronze valve parts, stress corrosion cracking failures in sea water, May 24

Aluminum, performance when exposed to contaminated acetic acid, Sep 20

Aluminum, stress corrosion cracking in marine atmosphere, May 24

Brasses, stress corrosion cracking in naval service, May 24

Chromium, identification by color kit method, Sep 32

Columbium for seamless tubing, Jan 12

Columbium plus 5% zirconium, coated with water slurries of aluminum for refractory service, Jan 12

Copper base, stress corrosion cracking in naval service, May 24

Copper base, method of presenting and evaluating corrosion data on, Jan 36

Copper-Constantan wires in thermocouple, high temperature corrosion of, Jun 72

Copper, identification by color kit method, Sep 32

Copper, performance when exposed to contaminated acetic acid, Sep 20

Cupro-nickel used in sea water conversion plant, Mar 48

Diffused aluminum coatings for high temperature service on various alloys, Jul 50

Identification by color kit for rapid, portable uses, Sep 32

Iron base, method of presenting and evaluating corrosion data on, Jan 36

Magnesium-lithium base, stress corrosion tests on, Feb 28

Maraging steel, stress corrosion test, Dec 27

Materials specifications for hydro-cracking process equipment, Jun 64

Molybdenum by color kit method, Sep 32

Nickel base, method of presenting and evaluating corrosion data on, Jan 36

Nickel, identification by color kit method Sep 32

Silver-lead anodes used to protect steel piling at Staten Island Ferry Terminal Feb 53

Steel, high strength, stress corrosion cracking of, Sep 30

Steels, stainless, performance when exposed to contaminated acetic acids, Sep 20

Titanium, 6% aluminum, 4% vanadium, compatibility with nitrogen tetroxide, Jan 35

ALUMINUM

Alloys, corrosion by contaminated acetic acid, Sep 20

Construction material for lubrication systems, Sep 41

Diffused coatings of, for high temperature service, Jul 50

Helicopter rotor and control parts, shotpeened to prevent intergranular corrosion, Aug 27

Resistance to lubricants and hydraulic fluids compared to mild steel, Sep 41

Rivets used in aircraft skin fastener corrosion tests, Aug 18

Tested for compatibility with X-15 aircraft fuels (ammonia), Mar 56

Testing in tropical environments, Dec 30

Tests to determine cause and prevention of edge corrosion on naval aircraft, Apr 48

Tropical corrosion tests, Dec. 30

Tubing, test to justify proposed substitution for Admiralty brass in cooler and condenser service, Jul 28

Washers used to seal and cathodically protect aircraft skin countersinks and fasteners, evaluation of Aug 18

Water slurry coatings of, applied to columbium alloy for refractory service, Jan 12

ANODES

Aluminum, offshore structure protection, Oct 83

Cost comparison made for pipeline, Mar 23

Graphite, offshore structure protection, Oct 83

Ground bed, remote, method for locating, Sep 36

Groundbed, deep well, failure of and details of replacement beds, Jul 80

Groundbed, failure due to gas blocking, Jul 80

Iron, high silicon, used in deep well-groundbed, Jul 80

Lead-silver to protect steel piling at Staten Island Ferry Terminal, Feb 53

Lead, suspended, replace buried graphite anodes to protect offshore structure, Jun 36

Magnesium array to protect cables on deep sea moor, Aug 63

Magnesium, in urban areas, Dec. 57

Magnesium, offshore structure protection, Oct 83

Magnesium, use on heat exchanger coils justified by use of capitalized cost method, Mar 29

Magnesium used on marine pipeline, Oct 63

Marine pipeline, 15-year case history study, Oct 63

Material, effect on pH of electrolyte in salt crock test, Mar 82

Remote ground bed, methods for locating, Sep 36

Shielding anodes on ship hulls, Dec 36

Zinc, attached to ship hulls by conductive cement, Jul 38

Zinc, off-shore structure protection, Oct 83

Zinc-rich coatings as replacements for, Nov 27

Zinc, used to protect kort nozzles on two tugs, Feb 24

ANODIC PROTECTION

Carbon Steel in fertilizer solutions, Jun 81

Portable unit to protect stainless tank truck against sulfuric acid, Mar 59

Titanium heat exchanger processing hot sulfuric acids, problems with, Jan 60

B

Bactericides tested on waterflood systems, Feb 57

Bellows, metallic, corrosion of in aircraft, Oct 69

Beta particles, measuring corrosion, Nov 39

Bird droppings as possible cause of stress corrosion cracking on metals in marine atmosphere, May 24

Blasting sands, characteristics and field test to evaluate, May 11

Bolts and screws, brass, stress corrosion cracking in marine atmosphere, May 24

Bolts, cadmium plated steels, used in aircraft skin fastener corrosion test, Aug 18

Bonding metals by explosion cladding, Jun 10

Brass, admiralty, use in sea water conversion plant, Mar 48

Bricks, acid proof, to protect concrete flooring, May 49

Bridges, maintenance coating program, Sep 57

Bronze stem in gate valve fails in less than one year service in hot acetic acid, Jun 28

BACTERIA

Corrosion action of sulfate-reducing species in waterflood systems, Feb 57

Development of chemical formulation to control microorganisms in cooling water systems, Jul 62

Sulfate reducers controlled by use of peracetic acid, Jan 57

Sulfate reducing, killed by use of peracetic acid in waterflood and cooling tower systems, Jan 57

Waterflood system, corrosion caused by, Feb 57

BACTERIAL CORROSION

Conditions in waterflood system necessary for, Feb 57

Waterflood systems, caused by sulfate-reducing species, Feb 57

- BERYLLOMUM**
Protection of, Jan 24
Protected with anodic coatings, Jan 24
Types of corrosion on, Jan 24
Unprotected, methods of minimizing corrosion on, Jan 24
- BOILERS**
Chemical cleaning of, localized attack, Feb 14
Detection of sodium ions and trace elements in steam-water cycle of steam turbine generators, May 56
Localized attack during chemical cleaning, Feb 14
- C**
Career fields in corrosion established by Air Force, Aug 50
Cement, corrosion of prestressed wires in, Nov 49
Chelation chemistry, importance to water treatment and chemical cleaning, Feb 78
Chemicals, glass fibers reinforced epoxy piping, resistance to, Oct 50
Chlorides, corrosion in aircraft, Oct 69
Chloride, deposits in naphthalene production, Oct 79
Chloride, dry, causes valve failure on compressor, June 28
Chromium alloys identified by color kit method Sep 32
Chromium, hexavalent, laboratory testing as an inhibitor, Jan 43
Circuits, cathodic protection rectifiers, Apr 75
Classification system for personal filing system of corrosion literature, Apr 54
Clorox, epoxy-acrylate, tests in, Oct 47
Coal Tar Distillation Equipment, reducing corrosion, Dec 52
Coal-water slurries containing hexavalent chromium, Jan 43
Cobalt, pure, expanded metal being produced, Jan 7
Columbium protected with water slurry coatings, Jan 12
Computer storage of pipelines corrosion data compared to card file, Jul 57
Computer used to evaluate corrosion control on pipeline, Jul 57
Concrete pipe, prestressed, screening effects in cathodic protection, Feb 34
Conductive cements to bond zinc anodes to chip hulls, Jul 38
Consultant in corrosion work and his working relationship with management, Apr 58
Consultant, corrosion, basic requirements of, Apr 58
Consulting work for corrosion engineer, Mar 21
Contaminants in acetic acid, effect of on corrosion of various alloys, Sep 20
Contaminants in crude oil determined by X-ray spectroscopy, Feb 30
Controlled humidity, coating tanks in, Nov 69
Copper-amino resin studied for oxygen removal in water systems, Jul 24
Corona breakdown in jeeping pipeline coating, Sep 8
Corrosion data, method of presenting and evaluating for 50 materials in 1500 environments, Jan 36
Corrosion engineer as a consultant, Mar 21
Corrosometer, Oct 8
Cost comparisons made on specific problems to show how money can best be saved, Mar 23
Countersinks on aircraft skin, corrosion control evaluation of, Aug 18
Coupons as means to measure corrosion, advantages and disadvantages of, Oct 8
Cyanide zinc, comparison with pyrophosphate zinc electroplating, Nov 55
- CABLES**
Control, corrosion of in aircraft, Oct 69
Copper wire, corrosion of, Mar 8
Deep sea moor, cathodic protection of, Aug 63
Zero resistance ammeter to measure current flow in, Sep 75
- CATHODIC PROTECTION**
A complex piping system, Nov 71
Anode groundbed, remote, methods for locating, Sep 36
Anode material, effect of, on electrolyte pH in salt crock test, Mar 82
Concrete pipe, prestressed, screening effects, Feb 34
Corona breakdown in jeeping pipeline coatings, Sep 8
Criteria, application, underground structures, Aug 93
- Deep sea moor, design and installation of system, Aug 63
Floating drydock, Dec 23
Groundbed, deep well anode, failure due to gas blocking, replacement system for, Jul 80
Hydrocarbon resin based coatings, testing with, Nov 43
Installation, inspection of, Jul 11
Interference problems, Dec 57
Kort nozzles on two tug boats, pits attack solved by, Feb 24
Marine pipeline, 15 years performance, Oct 63
Of bare pipe lines, Dec 57
Offshore structure, change from buried graphite to suspended lead anodes, Jun 36
Offshore structure, protection with, Oct 83
Pipeline covered by steel sleeve at road and rail crossings, acting as a screen, Feb 34
Pipeline with oxide scale acting as a screen, Feb 34
Power sources evaluated by capitalized cost method, Mar 29
Prestressed concrete, Nov 57
Rectifiers, Selection, Installation, Apr 75
Screened structures, Feb 34
Shielding anodes on ship hulls, Dec 36
Steel lines, parallel, screening effects, Feb 34
Steel piling at Staten Island Ferry Terminal, Feb 53
Steel pipe with reinforced mortar coating, Feb 34
Urban areas, in, Dec 57
Zinc anodes bonded to ship hulls by conductive cement, Jul 38
- CERAMICS**
Applications engineered for corrosion resistance, Sep 46
Categories: technical and refractory used in corrosion resistant applications, Sep 46
- CLEANING**
Chemical, importance of chelation chemistry to, Feb 78
Chemical, localized attack during, Feb 14
- COATINGS, APPLICATION TECHNIQUES**
Alkyd coating for prevention of atmospheric corrosion, Sep 82
Diffused aluminum-coatings, Jul 50
Inspection of, Jul 11
Polyester coatings applied to 12-mil thickness in one coat with dual-spray guns, Apr 15
Titanium on metal by electro-deposition, Jun 78
Water slurry used as vehicle to apply columbium aluminum coatings, Jan 12
- COATINGS, CONVERSION**
Alodined aluminum panel used in aircraft countersink and fastener corrosion test, Aug 18
Anodic, protection of beryllium, Jan 24
Magnesium phosphate treatment for helicopter transmission gears causes pitting, Aug 27
- COATINGS, EVALUATION**
Adhesion of epoxies that cure underwater, Sep 24
Bridge coatings, Sep 27
Comparison of lab tests to field exposures under similar environment, Apr 32
Field test (one-year) to compare polyester, vinyl, alkyd, epoxy in one-year marine atmospheric exposure, Apr 15
Polyester, atmospheric comparison with known systems for one year, Apr 15
Selection for shipboard tanks based on Navy specifications qualified list, Oct 66
Test methods for particular applications, Apr 32
X-ray spectroscopy used for, Feb 30
- COATINGS, GENERAL**
Asphalt, new development, Nov 22
Chain link fences, plastic coated, Aug 8
Comparison of polyester, alkyd, vinyl, epoxy coatings in one-year field test in marine atmospheric exposure, Apr 15
Corona breakdown as factor in jeeping pipeline coatings, Sep 8
Cost comparisons between two coatings systems for pipeline made by capitalized cost method, Mar 29
Cost of painting, mathematical method to determine, Jun 40
- Economic analysis made to justify extra cost of coatings on pipeline, Jul 57
Edge attack on magnesium parts of helicopter, Aug 27
Evaluation by salt crock test, effect of anode material on pH of electrolyte, Mar 82
Floors, industrial, made of concrete, to protect, May 49
Humidity control, coating in, Nov 69
Hydrocarbon resin based, testing, Nov 43

 Fouling, detection by test exchanger, Aug 70
 Fractionators, coal tar, Dec 52
 Fracture, tests with maraging steels, Dec 27
 Fuel ashes, corrosion of TD and A Nickel in, Nov 31
 Fungi, bacteria, effect on asphalt, Dec 39

FUELS

- Hydrogen peroxide system for X-15 aircraft, corrosion problems with, Mar 56
 Missile, recoverable, corrosion problems with, Mar 56
 Rocket, nitrogen tetroxide, compatibility tests with titanium, Jan 55

G

- Gas industry, use of glass fiber reinforced epoxy piping, Oct 50
 Gases, performance of alkyls in, Sep 82
 Gaskets, packings, deterioration of, Nov 13
 Graphite anodes, buried, replaced by suspended lead anodes to protect offshore structure, Jun 36
 Grounding problems related to corrosion, Aug 47

GALVANIC

- Attack on helicopter between magnesium and steel components, Aug 27
 Copper-silver couple in silver-plated copper wire, corrosion of, Mar 8
 Corrosion caused by mill scale and metal, Dec 45
 Driven ground rod test program, Dec 75
 GALVANIZING
 Chain link fence, industrial uses, maintenance of, Aug 8
 Driven ground rod test program, Dec 75
 Protection for reinforcing steel in concrete structures, compared to bare carbon steel, May 53
 Reinforcing prestressed concrete wires, Nov 35
 Zinc-rich coatings as replacement for, Nov 27

H

- Heat transfer factors in corrosion and fouling of cooling water system tubing, July 28
 Helicopter corrosion problems, Aug 27
 Hexametaphosphate, laboratory testing as a corrosion inhibition, Jan 43
 Highway bridges, maintenance coating program for, Sep 37
 Hot lime-soda softener, corrosion problems in steam flooding, Oct 57
 Human body, corrosion of stainless steel prostheses exposed to, Aug 56
 Humidity control, coating tanks in, Nov 69
 Hydrocarbon resin based coatings, testing, Nov 43
 Hydraulic line, pitting attack in aircraft, Oct 69
 Hydrocracking process equipment, materials specifications and fabrication, Jun 64

HEAT EXCHANGERS

- Corrosion of, in naphthalene production, Oct 79
 Evaluating corrosion with test exchangers, Aug 70
 Methods of reducing costs of water treatment without lowering protection on units, Mar 62
 NACE standard heat exchanger used to monitor corrosion in cooling water, Aug 73

- Stainless steel, stress corrosion cracking, Sep 14
 Tubes, cost comparison made on replacement, cleaning and salvage, Mar 23
 Tubing, corrosion and fouling in open recirculating cooling water system, Jul 28

HEAT TREATMENT

- Quenching method to lower susceptibility of high strength tubular steel to cracking in hydrogen sulfide, Sep 50

HYDROGEN

- Attack on steels, report on NACE research project, Feb 51
 Effects on alloys used for reactor in hydrocracking process equipment, Jun 64
 Embrittlement on transmission gears of helicopter, Aug 27
 Evolution during chemical cleaning, Feb 14
 Role as intermediate in bacterial corrosion, Feb 57
 Sulfide corrosion cracking in oil wells, Dec 45
 Sulfide, effect on stress corrosion cracking of high strength tubular steels, Sep 50

I

- Identification of alloys by rapid, portable color kit method, Sep 32
 Inconel, Mar 56
 Indexes, importance in making literature search on corrosion problem, Apr 51
 Industrial fencing, performance and maintenance in corrosion environments, Aug 8
 Inorganic acid, performance of alkyls in, Sep 82
 Insulation constituents breakdown cause surface corrosion on constant thermocouple wires at high temperature, Jun 72
 Insulation materials tested to determine effect on external stress corrosion cracking of stainless steel, May 18
 Interference, cathodic problems in urban areas, Dec 57
 Ion exchange studies for water deoxygenation, Jul 24

INHIBITORS

- Absorption-desorption studies on squeeze technique for oil wells, Jul 69
 Amido acids, effect of structural changes, Apr 60
 Concentration determined by X-ray spectroscopy, Feb 30
 Development of formulation to control microorganisms in cooling water system, Jul 62
 Dichromate-zinc for recirculating cooling water systems, Jul 52
 Effect during chemical cleaning of boilers, Feb 14
 Effect on corrosion rate in water-flood system, Feb 57
 Evaluation of adsorption and desorption of amido acids and other materials, Apr 60
 Fluorocarbon surfactants for cooling tower water and hot water circulation systems, Jul 44
 Hexavalent chromium in coal-waste slurries, Jan 43
 Low level chromate system with fluorocarbon surfactant added, Jul 44
 Method for evaluating adsorption and desorption of amido acids and other materials, Apr 60
 Oil well lab studies on squeeze technique, Jul 69
 Pump seal problems created by high concentration of, Aug 40
 Radioactive tracer technique to check inhibitor concentration in oil well production, Jul 18
 Squeeze method in oil wells, radioactive tracer method to determine inhibitor concentration, Jul 18
 Squeeze technique on oil well, lab studies on, Jul 69
 Use of in steam injection systems, Oct 57

INSPECTION

- Cathodic protection installation, Jul 11
 Coating application, Jul 11
 Coatings, sampling of, Jul 11
 Importance in bridge maintenance coating program, Sep 57
 Keeping pipeline coatings, corona breakdown as a factor in, Sep 8
 Linings, thick film, use of high-voltage holiday detectors, Apr 26
 On-stream, radiographic method used at refinery, Oct 26

Pipe coatings, Jul 11
Radiography used on-stream at refinery, Oct 26
Safety responsibilities of inspector, Jul 11
Specific items of importance in corrosion control work, Jul 11
Specifications, importance of, Jul 11
Surface preparation by blast cleaning, Jul 11
Welds of PVC lining in sewer pipe, Apr 26

INSTRUMENTS

Electrical resistance probes and recording meters to measure corrosion, Oct 8
Flame photometer measures specifications such as sodium and potassium in steam-water cycles of steam turbine generator, May 56
Sodium sensitive glass electrode for measurement of sodium ions in aqueous solution, May 56
Zero resistance ammeter in corrosion testing, Sep 75

J

Jeeping pipeline coatings, corona breakdown as a factor in, Sep 8

K

Kort nozzles on two tugs, cathodic protection solves pitting attack on, Feb 24

L

Laminates, reinforced for tank bottoms, Oct 74
Lead-platinum anodes for ship hulls, Dec 36
Literature classification in personal filing system for corrosion engineer, Apr 54
Literature in evaluation corrosion of prestressed concrete, Nov 65
Literature search, four-step method for making literature survey on a specific corrosion problem, Apr 51
Localized corrosion resulting from chemical cleaning, Feb 14
Lubrication systems, use of aluminum as material of construction for, Sep 41

LININGS

Evaluation test methods for epoxies and vinyls, Apr 32
Explosion clad plate, Jun 10
Gaskets, packing, deterioration of, Nov 13
Polyurethane for abrasion resistance in cyclone dust separator, Apr 37
Polyurethane last 29 months in abrasion service where neoprene rubber lasted 2 months, Apr 37
PVC, plasticized, continuity measurements with high voltage holliday detector, Apr 26
Rubber, natural, for tanks, Oct 43
Tank bottoms with reinforced plastics, Oct 74
Tank, natural rubber, Oct 43
Thick film (60 mils to 3/16-inch) made of plasticized PVC, Apr 26
Titanium methods and economic of, Jan 32

M

Maintenance painting, glossary of terms for, Jan 73
Malpractice by engineers, Jun 22
Maraging steel, stress tests, Dec 27
Mastic surfacing to protect concrete flooring, May 49
Mathematic approach to determining painting cycles for bridges, Jun 40
Measuring corrosion with electrical resistance probes and coupons, Oct 8
Meter, zero resistance ammeter, Sep 75
Mineral fillers for polyvinyl chloride, Oct 13
Molybdenum alloys identified by color kit method, Sep 32
Molybdenum application, Jan 7
Monel, Mar 48
Multistage flash seawater conversion plant, materials selection for, Mar 48

MAGNESIUM

Anodes to protect cables on deep sea moor, Aug 63
Anodes, use of in urban areas, Dec 57
Anodes used on marine pipeline, Oct 63
Helicopter parts, galvanic attack between magnesium and steel, Aug 27
Tests to determine cause and prevention of edge corrosion on naval aircraft, Apr 48
Tropical corrosion test, Dec 30

MANAGEMENT

Corrosion control program, Dec 7
Corrosion control programs in the Air Force, Dec 11
Decisions influenced by calculated risk, Mar 35
Desire to know economic aspects of corrosion control measure, May 38
Factors considered for decision in determining optimum painting cycles, Jun 40
Importance of corrosion control to, Jun 20
Need for simple, factual data on corrosion control measures, Jun 20
Relationship with corrosion consultant, Apr 58

MARINE

Cathodic protection of ferry terminal steel pilings in New York Harbor, Feb 53
Deep sea moor, cathodic protection system for, Aug 63
Economic analysis of tank coatings for tankers in clean service, Jan 50
Environments, variables in, Dec 13
Epoxy coatings that cure underwater adhesion testing, Sep 24
Floating drydock, protection of, Dec 23
Offshore structure, protection, Oct 83
Polyester coatings for ship bottoms, Apr 10
Reinforced concrete corrosion, Nov 8
Submerged pipeline, 15 years of cathodic protection, Oct 63

MECHANISMS

Bacterial corrosion in waterflood system, Feb 57
Cathodic protection, report by NACE Technical Committee T-2C, Aug 93
Chelation chemistry, importance to water treatment and chemical cleaning, Feb 78
Copper wire, red plague corrosion of, Mar 8
Detecting reinforced concrete corrosion with mild steel probes, Nov 8
External stress corrosion cracking of stainless steel under thermal insulation, May 18
Measuring corrosion by beta back-scattering, Nov 39
Oil well corrosion types, Dec 45
Rectifiers, operation, installation, Apr 75
Red plague corrosion on silver-plated copper wire, Mar 8
Surfactants as inhibitors, Jul 44
Titanium, three theories on inhibitor action of, Jan 16

MEDICINE

Corrosion of stainless steel prothesis, Aug 56

METALLURGY

Alloy identification by color kit, Sep 32
Bond achieved with two metals joined by explosion cladding, Jun 10
Corrosion studies on stainless steel wire cloth used as chest prothesis, Aug 56
Effect of hydrogen sulfide on stress corrosion cracking of high strength tubular steels, Sep 50
Electroplating zinc from a pyrophosphate solution, Nov 55
Explosion clad plate, Jun 10
Heat treatments and phases determined by x-ray spectroscopy, Feb 30
Improper heat treatment causes failure of stainless steel valve, Jun 28
Localized pit phenomena during chemical cleaning of boilers, Feb 14
Maraging steel, stress corrosion tests, Dec 27
Measuring corrosion by beta back-scattering, Nov 39

Nickel TD, corrosion of, Nov 31
Quenching method to lower cracking susceptibility of high strength tubular steels, Sep 50
Shotpeening improves aluminum's resistance to intergranular corrosion for use as helicopter rotor, Aug 27

METALS, EXCEPTIONAL

Beryllium, corrosion problems and methods of protecting, Jan 24
Bibliography of books on, Jan 7
Columbium, protected with water slurry coatings, Jan 12

New process and applications, Jan 7
Silver-plating on copper wire, corrosion problems, Mar 8

 Remote anode system for ship hulls, Dec 36
 Report of NACE Technical Unit Committee, T-2 C, Aug 93
 Residual corrosion, prevention of, hexavalent chromium in coal water slurries, Jan 43
 Resins, glass reinforced, Oct 22
 Resins, hydrocarbons, Nov 43
 Resins, reinforced plastics for tank bottoms, Oct 74
 Resins, vinyl solution coatings, physical and chemical nature of, Aug 32
 Resistance, ammeter to measure, Sep 75
 Ringworm-corrosion in oil well tubing, Dec 45
 Rods, sucker, oil well, corrosion of, Dec 45
 Roofing, effect of bacteria and fungi, Dec 39
- Refinery**
 Complexity of, as a receptor of cathodic protection current, Dec 57
 Equipment, stainless, stress corrosion cracking of, Sep 14
 Hydrocracking equipment, stress corrosion cracking by polythionic acids, Sep 14
 On-stream inspection by radiography, Oct 26
 Use of plastic pipe for corrosion resistance, Oct 34
- Research**
 Pitting phenomena not explained, Feb 14
- Rubber**
 Gaskets, packings, deterioration of, Nov 13
- S**
 Salt solutions, performance of alkyls in, Sep 82
 Salt water conversion plant, selection of materials for corrosion resistance, Mar 48
 Salt water, performance of glass fiber reinforced piping in, Oct 50
 Sand for blasting to prepare metallic surfaces, characteristics and field test to evaluate, May 11
 Saving money with reinforced plastic tank linings, Oct 74
 Screening effects on cathodically protected structures, Feb 34
 Seal problems on pumps in cooling water systems, Aug 40
 Selection of materials for corrosion resistance in salt water corrosion plants, Mar 48
 Sewer system, plastic pipe, Dec 17
 Silicide coatings for columbium alloy, Jan 12
 Silver-plated copper wire, study of corrosion problem on, Mar 8
 Sodium chloride, corrosion by, in aircraft, Oct 69
 Sodium chloride exposure in lab to test coatings, Apr 32
 Sodium hydroxide exposure in lab to test coatings, Apr 32
- Sodium ion measurement to detect contamination of steam-water cycles in a steam turbine generator, May 56
 Sodium ion, problems of in feed water for steam injection system, Oct 57
 Solvents, epoxy-acrylate, tests in, Oct 47
 Sour crude oil, performance of glass reinforced epoxy piping in, Oct 50
 Specifications, importance in inspection of corrosion control work, Jul 11
 Squeeze inhibition for oil wells, radioactive tracer method to check concentration, Jul 18
 Stack, cost comparison made for protection of, Mar 23
 Steam flood, stimulation, equipment corrosion problems, Oct 57
 Steam injection, equipment corrosion problems, Oct 57
 Steam turbine generator, detection of sodium ions and trace elements in steam-water cycle of, May 56
 Sulfate-reducing bacteria cause corrosion in waterflood systems, Feb 57
 Sulphite from anion resin studied for oxygen removal in water systems, Jul 24
 Sulphite, laboratory testing as an inhibitor, Jan 43
 Surfactants, fluorocarbon, used as inhibitor and to form protective film on some metals, Jul 44
- SAFETY**
 Responsibilities of inspector, Jul 11
- SEALANTS**
 Deterioration of gaskets and packings, Nov 13
 Fuel pump seal failure, aircraft, Oct 69
- SEA WATER**
 Concrete reinforcing corrosion, Nov 8
 Contamination, airborne, of land structures, Dec 13
 Contamination of offshore structures, Dec 13
 Deep sea moor, cathodic protection system for, Aug 63
 Epoxy coatings that cure underwater, adhesion testing of, Sep 24
 Offshore structure protected by lead anode system, Jun 36
 Pipeline, submerged in, 15 years of cathodic protection, Oct 63
 Stress corrosion cracking of various engineering materials in, May 24
 Testing aluminum, magnesium in tropical environments, Dec 30
- SHIPS**
 Coating tankers in controlled humidity, Nov 69
 Cost comparisons for coating ship bottoms, with glass flake polyester and with conventional coatings, Apr 10
 Cathodic protection of Kort nozzles on two tugs, Feb 24
 Economic analysis of tank coatings for tankers in clean service, Jun 50
 Glass flake and glass fiber polyester coatings for ship bottoms, Apr 10
 One million dollars saved by coating tanks in tanker as determined by economics analysis, Jun 50
 Selection of coatings for shipboard tanks, Oct 66
 Shielding anodes on ship hulls, Dec 36
 Shipboard tanks, selection of coatings for, Oct 66
 Zinc anodes bonded to ship hulls by conductive cements, Jul 38
- STATISTICAL ANALYSIS**
 Computer used to evaluate corrosion control on a pipeline, Jul 57
- STEEL**
 Bolts, cadmium plated, used in aircraft skin fastener corrosion test, Aug 18
 Bridges, highway, maintenance coating program, Sep 57
 Carbon, anodic protection in fertilizer solutions, Jun 81
 Carbon, stress corrosion cracking in naval service, May 24
 Carbon, tests to determine cause and prevention of edge corrosion on naval aircraft, Apr 48
 Carbon, use in sea water conversion plant, Mar 48
 Cathodic protection of, in prestressed concrete, Nov 57
 Chain link fence, galvanized and aluminized, comparison of performance, Aug 8
 Comparison of with reinforced plastics as tank bottoms, Oct 74
 Concrete reinforcing corrosion, Nov 8
- Driven ground rod test program, Dec 75
 Effect of alternating current on, buried in soil, May 80
 Helicopter parts, galvanic attack between magnesium and steel, Aug 27
 High temperature stress corrosion tests on precipitation hardening steels, Aug 23
 Hydrogen attack, high temperature, report on NACE research project, Feb 51
 Maraging, stress corrosion tests, Dec 27
 Mild, compared to aluminum in resistance to lubrication and hydraulic systems, Sep 41
 Mild steel corrosion in concrete, Nov 8
 Pipelines, protection with hexavalent chromium, Jan 43
 Piling, cathodic protection, Staten Island Ferry Terminal, Feb 53
 Prestressed concrete corrosion, Nov 65
 Prestressed wires, measuring potential to detect corrosion, Nov 49
 Protected by dichromate-zinc inhibitor in recirculating cooling water system, Jul 52
 Reinforcing rods in concrete, protected by galvanizing, May 53
 Reinforcing wires, corrosion of, Nov 35
 Tubing, test to justify proposed substitution for Admiralty brass in cooler and condenser service, Jul 28
 Tubular, high strength, effect of hydrogen sulfide on stress corrosion cracking, Sep 50
- STEEL, STAINLESS**
 Corrosion by contaminated acetic acids, Sep 20
 Corrosion of in naphthalene production, Oct 79
 Corrosion susceptibility in exposure to ammonia atmosphere, Mar 56
 Cost comparison with titanium, Jan 52
 Driven ground rod test program, Dec 75
 External stress corrosion cracking under thermal insulation, May 18
 Failures in aircraft, Oct 69
 Gaskets, spiral wound, stress corrosion cracking in marine boiler headers, May 24
 Identification by color kit method, Sep 32
 Pipe coupling, stress corrosion cracking in naval service, May 24
 Prosthesis, corrosion of, Aug 56
 Rivets used in aircraft skin fastener corrosion tests, Aug 18
 Stress corrosion cracking failures in naval service May 24
 Stress corrosion cracking in refinery equipment by polythionic acids, Sep 14
 Tank truck, hauling sulfuric acid, portable anodic protection unit for, Mar 59
 Uses in sea water conversion plant, Mar 48
 Value parts, stress corrosion cracking in naval service, May 24
 Value stem attacked by sulfuric acid, Jun 28
 Wire cloth used as chest prosthesis, corrosion studies on, Aug 56
- STRESS CORROSION**
 Comparison of TD and A Nickel, Nov 31
 Cracking, copper tubing, May 79
 Cracking, high strength tubular steels, effect of hydrogen sulfide Sep 50
 Cracking, naval materials, caused by bird droppings, sea water, hot water, May 24
 Cracking of stainless steel refinery equipment by polythionic acids, Sep 14
 Cracking, resistance of various alloys in hydrocracking process equipment, Jun 64
 External cracking of stainless steel under thermal insulation, May 18
 In naphthalene production, Oct 79
 Maraging Steel, Dec 27
 Oil well, tubing, drill pipe, casing, sucker rods, Dec 45
 Prestressed concrete, corrosion of reinforcing wires, Nov 35
 Tests at 650 F on alloys used in aircraft and space vehicles, Aug 23
 Tests on magnesium-lithium base base alloys, Feb 28
- Surface Preparation**
 Blasting sands, characteristics and field test to evaluate, May 11

Coatings for shipboard tanks, Oct 66
Evaluation of, for study of edge corrosion on naval aircraft, Apr 48
Glossary of terms in maintenance painting, Jan 73
Humidity control during coating procedures, Nov 69
Inspection of blast cleaning, Jul 11
Sandblasting for application of reinforced plastic linings, Oct 74
Steel bridges, Sep 57

T

Thermocouple wire made of Constantan, high temperature corrosion of, Jun 72
Thermoplastic piping for waste, vent, drain, sewer systems, Dec 17
Titanium anodes for ship hulls, Dec 36
Transmission gears on helicopter, pitting attack, Aug 27
Trichloroethylene, test with maraging steel in, Dec 27
Trigotrigonomic method for locating remote anode ground bed Sep 36
Truck trailer of stainless, portable anodic protection unit for, Mar 59

TANKS

Coatings for tankers in clean service, economic analysis of, Jun 50
Coating in controlled humidity, Nov 69
Coatings, selection for shipboard tanks, Oct 66
Linings of natural rubber, Oct 43
Prestressed, measuring corrosion to detect corrosion, Nov 49
Reinforced plastic bottoms, linings, Oct 74
Shipboard, selection of coatings for, Oct 66
Storage, cost comparison made for repair and replacement schedule, Mar 23
Truck, made of stainless, anodic protection portable unit for, in sulfuric acid service, Mar 59
Water sterilization of, in aircraft, Oct 69

TEMPERATURE, HIGH

Asphalt coatings, testing, Nov 22
Ceramics used in application of, Sep 46
Corrosion of Constantan thermocouple wires, June 72
Diffused aluminum coatings for service in, Jul 50
Effect of steam injection equipment, Oct 57
Effects on hexavalent chromium in coal-waste slurries, Jan 43
Hydrogen attack on steels, report of NACE research project, Feb 51
Rubber linings in tanks, limited by adhesives used, Oct 43
Stress corrosion tests on aircraft alloys at 650 F, Aug 23
Testing asbestos reinforced pipe fittings, Oct 35

TERMINOLOGY

Maintenance painting, glossary of terms for, Jan 73
NACE glossary of corrosion terms, Jan 79

TESTING

Driven ground rod program, Dec 75
Hydrostatic, on pipelines, Dec 57
Jeeping pipeline coatings, corona breakdown as a factor in, Sep 8
Measuring corrosion by beta back-scattering, Nov 39
Using electrical resistance probes, and coupons to measure corrosion, Oct 8
X-ray spectroscopy analysis for corrosion studies, Feb 30

TESTING, FIELD

Aluminum, magnesium in tropical environments, Dec 30
Asphalt pipe coatings, Nov 22
ASTM, marine environments, Dec 13
Bacterial corrosion, study of, Feb 57
Cathodic protection of prestressed concrete, Nov 57
Coal tar distillation equipment, Dec 52
Evaluation tests compared with lab tests for coatings, Apr 32
Formulations to control microorganisms in cooling water systems, Jul 62

Hydrocarbon based resins, Nov 43
Importance of reliable data to solve corrosion problems, Oct 13
Maraging steel, stress corrosion, Dec 27
Measuring potentials to detect corrosion in prestressed concrete tanks, Nov 49
NACE standard heat exchanger used to monitor corrosion in cooling water systems, Aug 73
Polyester coatings, marine atmospheric exposure for one year, Apr 15
Radioactive tracer methods to check concentration of inhibition in oil well squeeze inhibition, July 18
Variables in marine environments, Dec 13
Zero resistance ammeter to measure current flow, Sep 75

TESTING, LABORATORY

Adhesion of epoxies that cure underwater, Sep 24
Adhesion evaluation of epoxy coatings that cure underwater, Sep 24
Aircraft skin fasteners and countersinks evaluated in corrosion test, Aug 18
Aluminum, magnesium in tropical environments, Dec 30
Anodic protection of carbon steel in fertilizer solutions, Jun 81
Asbestos reinforced pipe, fittings, Oct 35
Asphalt coatings, Nov 22
Bacterial corrosion, study of, Feb 57

Cathodic protection of prestressed concrete, Nov 57
Cathodic protection for underground structures, Aug 93
Coal tar distillation equipment, Dec 52

Coatings evaluation, effect of anode materials on pH of electrolyte in salt crock test, Mar 82
Comparing resistance of aluminum and mild steel as materials for lubrication and hydraulic systems, Sep 41
Copper wire, silver-plated, study of corrosion, Mar 8
Effect of sodium chloride on aircraft materials, Oct 69
Epoxy-acrylate in chemicals, solvents, Oct 47
Evaluation tests compared with field tests for coatings, Apr 32
Experiments to determine causes and prevention of metallic edge corrosion on naval aircraft, Apr 48

External stress corrosion cracking of stainless steel under thermal insulation, May 18
Galvanized, black steel wire for prestressed concrete, nov 35
Glass fiber reinforced epoxy piping, Oct 50

Glass reinforced resins, Oct 22
Hexavalent chromium in coal-waste slurry, Jan 43
Hydrocarbon based resins, Nov 43
Immersion compatibility of titanium and nitrogen tetroxide, Jan 55

Impact sensitivity of titanium in nitrogen tetroxide, Jan 55

Inhibitor squeeze technique for oil wells, Jul 69
Maraging steel, stress corrosion, Dec 27
Measuring corrosion by beta back-scattering, Nov 39
Mild steel probe to detect corrosion in reinforced concrete, Nov 8
Mineral fillers for polyvinyl chloride, Oct 13

Oxygen removal in water systems by use of copper-amine resin and sulfite resin, Jul 24

Reactivity of titanium with liquid and gaseous oxygen, Jan 30
Reinforced plastics for tank bottoms, Oct 74

Salt crock, effect of anode materials of pH of electrolyte, Mar 82
Screening formulations to control microorganism in cooling water system, Jul 62

Stainless steel chest prosthesis, corrosion studies on wire cloth, Aug 56

Stress corrosion of magnesium-lithium base alloys, Feb 28
Stress corrosion studies at 650 F on alloys used in aircraft and space vehicles, Aug 23

TD Nickel and A Nickel, Nov 31
Titanium, compatibility with nitrogen tetroxide, Jan 55
Water de-oxygenation by ion exchange, Jul 24

Zinc-rich coatings as replacement for galvanizing, Nov 27

TEST, NONDESTRUCTIVE

Alloys identification by color kit method, Sep 32
Economics of, as part of corrosion control program, Mar 43
Measuring corrosion by beta back-scattering, Nov 39
Radiography used for on-stream inspection at refinery, Oct 26
X-ray spectroscopy analysis for corrosion studies, Feb 30

TITANIUM

Applications, Jan 7
Case histories of applications, Jan 52
Castings, economics and problems, Jan 52
Coatings, applied to metals by electro-deposition, Jun 78
Compatibility tests with nitrogen tetroxide, Jan 55
Corrosion data on, Jan 16
Corrosion resistance, review of characteristics and applications, Jan 16
Economics of use, Jan 52
Heat exchanger processing hot sulfuric acids, problems with, Jan 60
Inhibitor action, three theories, Jan 16
Reactivity with liquid and gaseous oxygen, Jan 30
Two alloys tested for stress corrosion at high temperature (650 F), Aug 23

TOWERS

Cooling, field test to determine effectiveness of low chromate levels with surfactants, Jul 44
Offshore, protected by lead anodes, Jun 36

TUBING

Brass, stress corrosion cracking in naval service, May 24
Copper, stress corrosion cracking of, May 79
Corrosion and fouling in open recirculating cooling water system, July 28
Drill, savings possible through use of non-destructive test program to justify used tubing, Mar 43
Furnace, for hydrogen plant, Jan 64

Heat exchanger, cost comparison made for replacement, cleaning, and salvage, Mar 23
Heat transfer coefficient of aluminum, steel, and Admiralty brass in cooling water system, Jul 28

Maintenance costs determined by use of calculated risk method, considering various alternatives, Mar 35
Steel, high strength, stress corrosion cracking of by hydrogen sulfide, Sep 50

U

Unidak process in naphthalene production, Oct 79

UTILITIES INDUSTRY

Grounding problems related to corrosion, Aug 47
High temperature corrosion of Constantan thermocouple wires, Jun 72

V

Valve, flooding, made of brass, stress corrosion cracking in sea water, May 24

Vent systems, plastic pipe, Dec 17

Vicone, Mar 56

VALVE

Aircraft, modulating, corrosion of, Oct 69
Case histories of corrosion problems, Jun 28

Corrosion of gaskets and packings, Nov 13

Materials used to resist hydrogen peroxide, Mar 56

Packing failures cause severe corrosion on metal valve parts, June 28

W

Waste systems, plastic pipe, Dec 17

Water slurries used as vehicle to apply refractory coatings to columbium instead of organic vehicles, Jan 12

Water treatment with copper-amine resin and sulfite resin to remove oxygen, lab studies on, July 24

Whirlybird corrosion problems, Aug 27

Wire, silver-plated copper, corrosion study on, Mar 8

Wire, thermocouple, made of Constantan, high temperature corrosion of, Jun 72

Wires, cathodic protection of in prestressed concrete structures, Nov 57

WATER

Boilers, detection of sodium ions and trace elements for purity of steam water cycles, May 56
Coal-water slurries, inhibition of, Jan 43

De-oxygenation by ion exchange, Jul 24

Distilled, tests with maraging steel in, Dec 27

Fresh, testing aluminum, magnesium in tropical environments, Dec 30

Oil field waterflood system, bacterial corrosion in, Feb 57

Oxygen removal by copper-amine resin and sulfite resin, lab tests on, Jul 24

Salt, conversion plant, selection of materials to resist corrosion, Mar 48

Sea, used in waterflood system, study of bacterial corrosion, Feb 57

Steam injection (oil well) equipment corrosion problems, Oct 57

Treatment of, importance of chelation chemistry to, Feb 78

WATER TREATMENT

Ways of saving money through study of system and possible modifications, Mar 62

XYZ

X-ray spectroscopy analyst for corrosion studies, Feb 30

ZINC

Anodes bonded to ship hulls with conductive cement, Jul 38

Anodes used as cathodic protection to solve pitting attack on korte nozzles of two tugs, Feb 24

Coatings as replacement for galvanizing, Nov 27

Coating, inorganic silicate, tested for steel bridges in marine environment, Sep 57

Electrodepositing from a pyrophosphate solution, Nov 55

Galvanized chain link fence, performance and maintenance in corrosive environments, Aug 8

Inorganic coatings, protection of offshore structures, Oct 83

Salts used with dichromate for inhibitor in recirculating cooling water system, Jul 52

REPRINTS

Reprints of all articles published in "Materials Protection" are available from NACE at nominal prices. Write to NACE 980 M & M Bldg., Houston, Texas 77002 for information or prices.
